Developing our Plan

Total Watershed Efficiency

Eliminate
Wasted
Water

Recycle,
Harvest,
&
Reuse

Reduce
Urban
Runoff

Reduce
Imported
Water

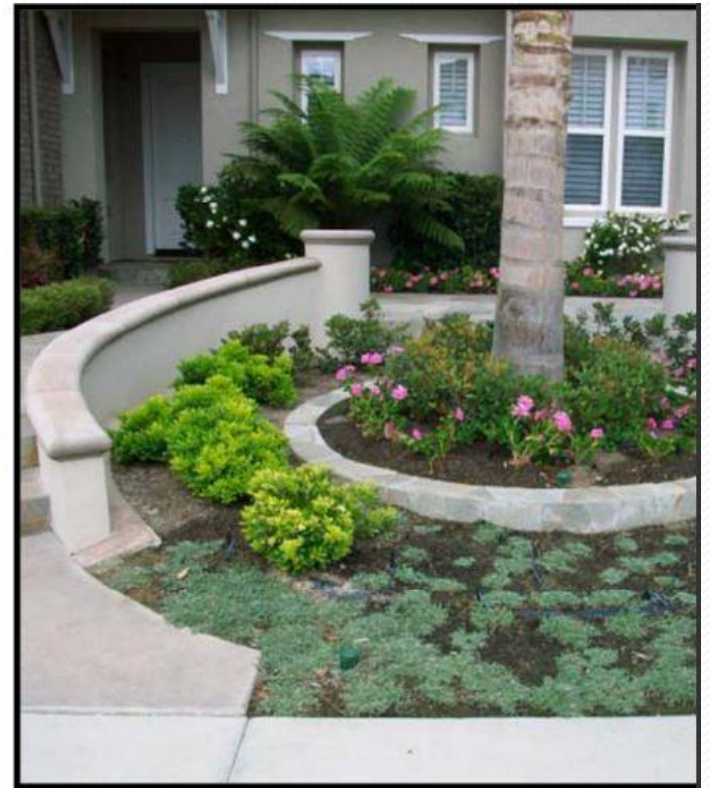

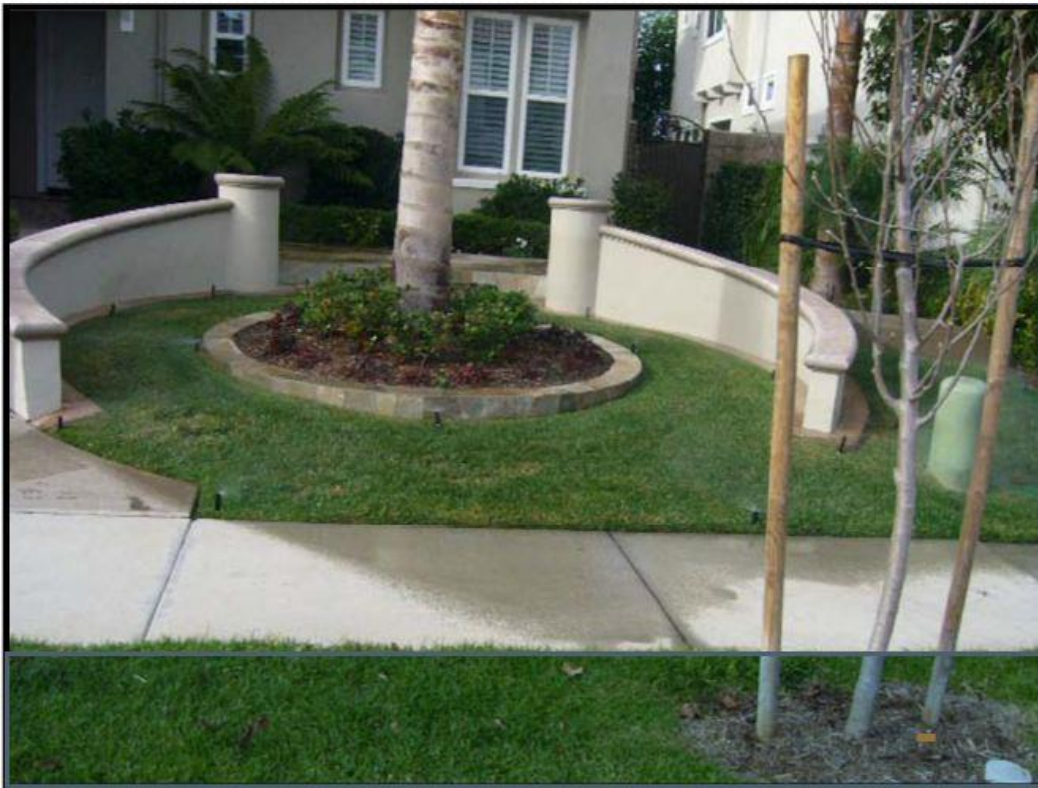

Increase
Recycled
Water
for
Irrigation

Save
Potable
Water

Store
Emergency
Water

Remove
*Arundo
donax* &
Restore
Habitat

Water Use Efficiency Program

2,450 SmarTimers & 292 irrigation system upgrades

Canada Gobernadora Multipurpose Basin

Capture & reuse urban runoff and stormwater, remediate hydromodification downstream, decrease flooding

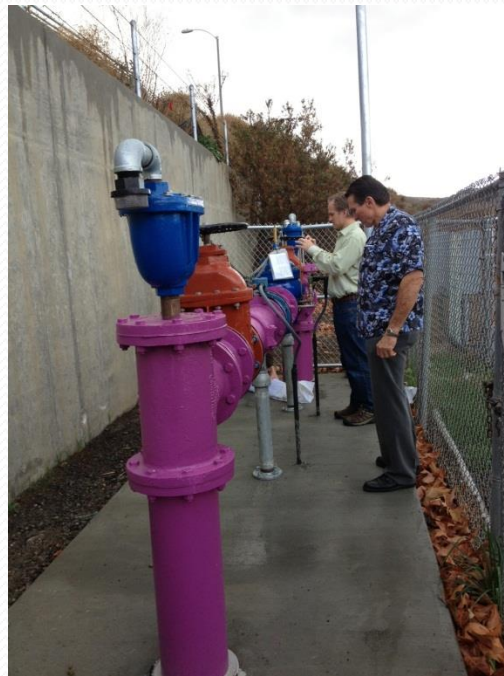

Heisler Park

Marine Habitat Protection

Reduce water use & urban runoff to ASBS,
stabilize coastal bluffs

Groundwater Recovery Plant, Transmission System Expansion

Expand groundwater recovery, add 3,300' recycled transmission lines, optimize non-potable well

Aliso Creek Restoration

Restore 3.7 miles of creek, remove 33 acres of *Arundo*

Recycled Water Distribution System Expansion

Expands recycled water system, construction of 2.5 MG reservoir, and will be reducing 930 potable acre-feet

Recycled Water & Distribution

1,480 acre-feet of tertiary recycled water,
distribution system reducing 980 potable acre-feet

Urban Runoff Recovery & Reuse

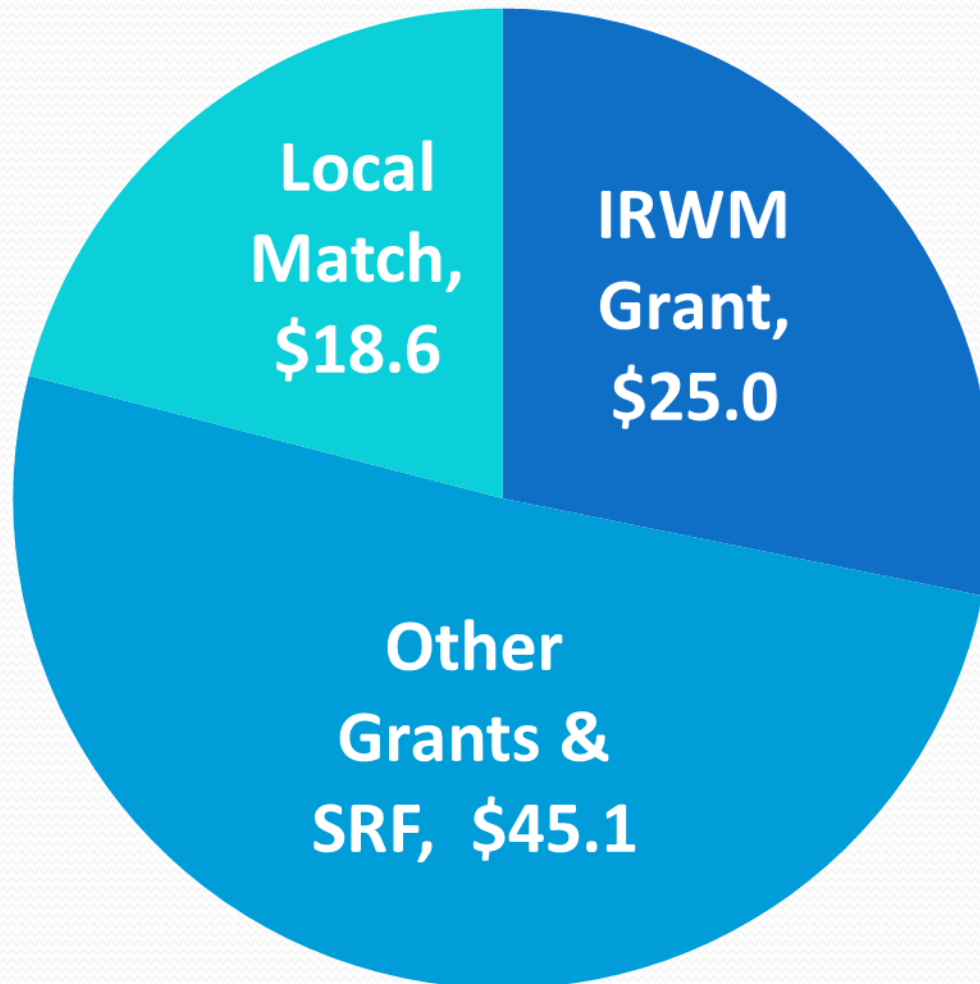

Harvest urban runoff, improve recycled water TDS, and reduce up to 50 potable acre-feet

Coastal Export Sludge System

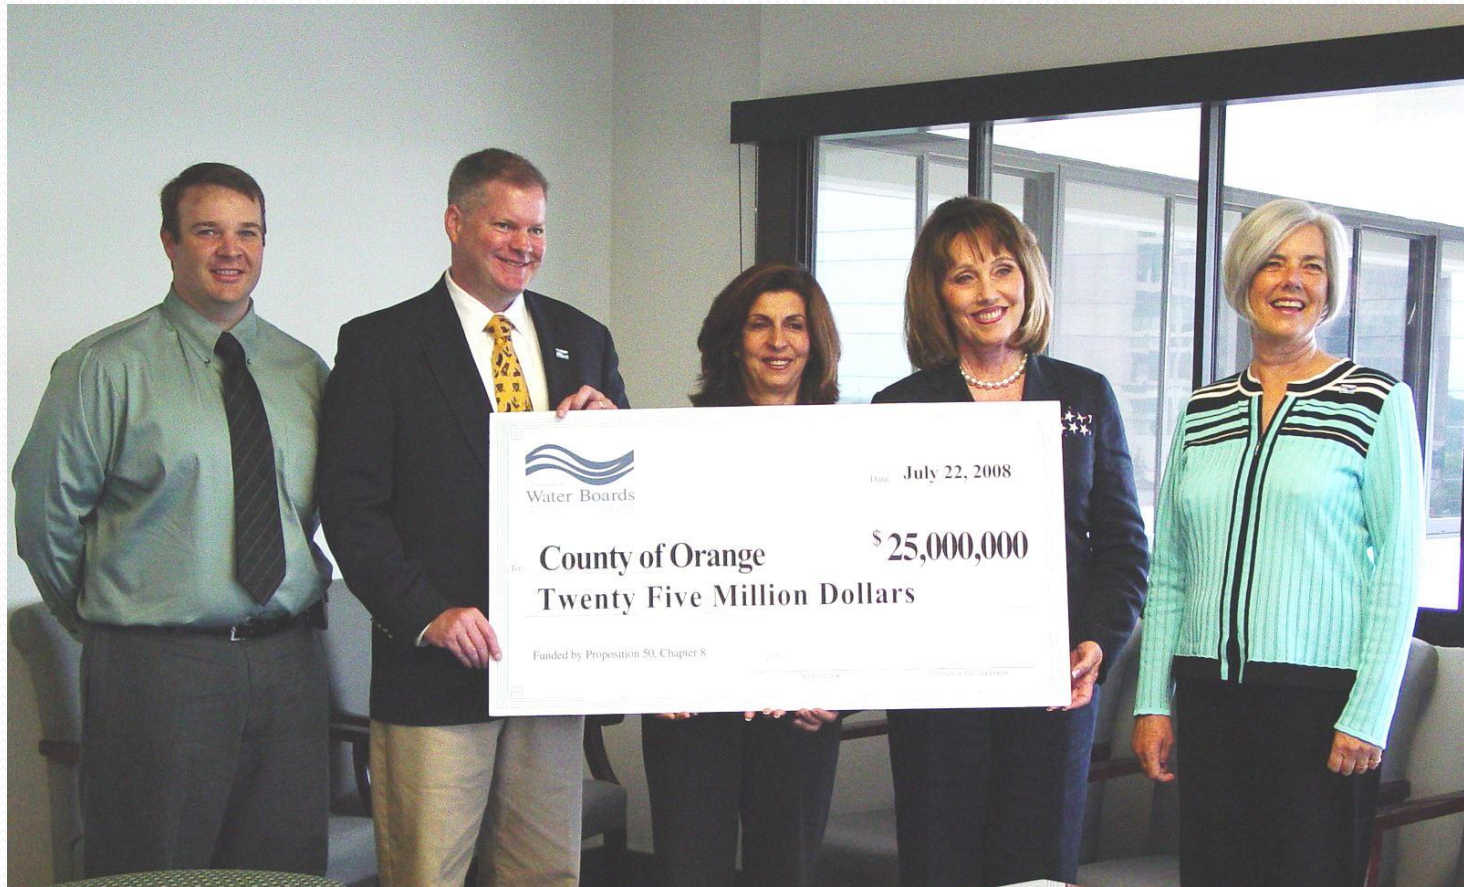

Minimize harm to wilderness park from utility lines,
enhance efficiency & emergency preparedness

Leveraging IRWM Grant x 3.5

in millions

Plan Becomes Reality
